

## ● COACH

Scomi Coach, a wholly owned subsidiary of a public listed company Scomi Engineering Bhd, manufactures buses for both the local and international markets. Since 1980's, Scomi's high quality lines of buses have been used in Malaysia and more than 10 other countries in Asia such as Hong Kong, Macau, Bangladesh and Singapore to name a few.

Scomi's manufacturing facility is able to produce 500 buses per annum and has developed a bus structure which fulfills the safety requirement standard under UN ECE Regulation 66.00 ("Regulation 66") for its 12-meter "Express Bus Model".

As one of the top 5 producers in Malaysia, our product combines passion for quality workmanship with carefully chosen materials, resulting in superior products. We strictly adhere to the highest safety standards and the buses are constructed using high quality structures which are well designed to provide optimal driver and passenger protection.

Coupled with distinctive and functional designs, Scomi offers a product range that becomes the pride of our customers. Typically, there are three ranges of buses manufactured by Scomi, namely the city, inter-city and mini range.

We provide a proven technology in manufacturing bus systems and designs, as well as after sales service.

## ● Range Of Scomi Busses

### City Bus

---

City bus range is to cater to the inner-city public transportation system. Our city buses feature pleasant interior and exterior aesthetics while maintaining high levels of safety, reliability, practicality and ride comfort. The city buses are designed for convenient boarding and alighting, accessibility for the disabled and environmental friendliness via the use of CNG engine models.

### Inter City Bus

---

Elegant buses with first-class traveling comfort. The buses are exclusively made for the tourism industry, private / Government agencies and college / university use, suitable for long distance travel. The inter city range can be double-decked as well as single-decked, and its interior can be customised according to the requirement of our customers, whether to achieve simplicity or luxury. The inter city buses are designed with pleasant aesthetics, high grade fittings and spacious luggage compartments, keeping in mind the need of a long journey.

### Mini Bus

---

Quality range buses ideal for tight cities and transportation of small group of passengers. The mini buses or also known as coasters are simple yet functional in design, exclusively made for public transportation, tourism industry and use by corporations.
